PROFILE

I am a developer that loves learning, currently I am working at Tata Consultancy Services as an Executive Support. This semester I will graduate from Computer Systems Engineering career with a speciality in Data Science. I am looking for an opportunity where I can fulfill my dream of becoming a full stack web developer.

EXPERIENCE

Executive Support, Tata Consultancy Services; Zapopan, Jalisco — 2021-Currently

Give support to trading applications on Barclays using Unix, SQL and Java. Remote.

Full Stack Developer, Tecnológico Nacional de México Campus Colima; Colima, Colima — 2021

Web application development for the management of the complementary activities using technologies like JavaScript, PHP, HTML, CSS y SQL. Remote and on site.

Full Stack Developer, H. Ayuntamiento de Villa de Álvarez; Villa de Álvarez, Colima — 2021

Web application development with technologies like JavaScript, PHP, HTML, CSS y SQL. On site.

Network Installation Assistant, Aplicaciones y Servicios de Información Empress; Colima, Colima — 2020

Manufacture cables, wiring e installation of electronic devices. On site.

Accounting Assistant, T&T Defensa Fiscal; Colima, Colima — 2019-2020

Electronic accounting, data capture, Document receipt and organization. Remote and on site.

EDUCATION

Tecnológico Nacional de México Campus Colima — Computer Systems Engineering with specialization on Data Science, 10° Semester, Grade Point Average: 95.65.

ABILITIES

I like to learn and I do it easily and very quickly. I like to work as a team, I like to teach my knowledge and learn from others. I like to create applications knowing that this would help someone. I am responsible, very organized and punctual.
